Ongoing Monitoring. ACPE staff continued daily monitoring of accredited providers through review of Activity Description Forms (ADFs), CPE Monitor® activity, responses to questions, requests for information from accredited providers, and follow-up to written complaints

received regarding specific providers and/or continuing pharmacy education program and activities.

Provider Guidance. During 2018, ACPE professional staff provided extensive technical assistance, consultation, and other resources to accredited providers as well as others seeking assistance. The policy of inviting providers to meet with ACPE professional staff in Chicago or at other locations of mutual convenience continues to serve an effective educational and communication purpose and administrator workshops continue to be well received.

ACPE CPE Administrator Workshops. These sessions include administrators from newly accredited providers as well as administrators from established provider organizations. The workshops are designed to provide a working knowledge of the ACPE accreditation process as it relates to continuing pharmacy education, ACPE *Standards for Continuing Pharmacy Education*, policies and procedures, *Standards for Commercial Support*, Provider Web Tool, CPE Monitor®, and Continuing Professional Development as they relate to the provider's accredited continuing education program. Two CPE Administrator Workshops occurred. The first workshop (modified version) was conducted in January prior to the Alliance for CE for the Health Professions Meeting in Florida for approximately 35 attendees. The second workshop (full version) occurred in Chicago for approximately 30 attendees.

CPE Monitor Plus. ACPE CPE Staff collaborated with NABP staff on the development and release of a mobile application, CPE Monitor Plus that allows pharmacists to upload non-ACPE accredited CE credit, view license status showing credit hours completed and hours needed, alert for CPE cycle deadlines, ability to conduct an ACPE activity search via PLAN, and access the CPD platform. CPE Monitor® is working effectively and efficiently. All ACPE accredited providers are awarding credit to learners via CPE Monitor®. As of December 2018, there were approximately 3000 subscriptions to CPE Monitor Plus and 1000 learners have accessed the CPD platform with approximately 80 learners initiating one or more CPD cycles.

Process for State Pharmacy Boards to Award CE Credit. State boards of pharmacy design CE activities related to their rules and regulations. ACPE now offers a process whereby state boards of pharmacy may award ACPE credit for these activities and upload the credit awarded to learners into CPE Monitor®. A State Board

of Pharmacy that designs, plans, and conducts CPE activities may apply for an ACPE CPE Activity Evaluation. The state board of pharmacy must be administratively and operationally responsible for coordinating all aspects of the CPE activities.

Joint Accreditation for Interprofessional Continuing Education. This year the joint accreditation program reviewed 24 applicants, 2 re-accreditations, and 16 progress reports. To date, there are 84 joint accredited providers with potentially 26 new applicants in 2019.

In 2018, Joint Accreditation expanded to:
American Academy of PAs (AAPA)
Association of Regulatory Boards of Optometry's Council on Optometric Practitioner Education (ARBO/COPE)

In 2019, Joint Accreditation will expand to:
Association of Social Work Boards (ASWB)
American Psychological Association (APA)

Two workshops were held:
In collaboration with the National Center for Interprofessional Education, Joint Accreditation held a Leadership Summit: IPCE Works! Evaluating Our Impact and Identifying Measures of Success in July 2018 with approximately 60 attendees.

"How-To" workshop for new joint accreditation applicants at the ACCME office in Chicago, September 2018 with approximately 50 attendees.

On the recommendation of the International Commission, Michael Katz (University of Arizona, AZ, USA) was appointed as a Commissioner for a three-year term beginning February 1, 2019.

On the recommendation of the IC, the Board granted initial Certification to the degree programs of four schools of pharmacy (five programs) and affirmed or continued the Certification of three pharmacy degree programs. The number of ACPE-certified pharmacy degree programs rose to 14 as a result of the June 2018 Board actions; these programs are from 11 schools of pharmacy in Saudi Arabia (3), India (1), United Arab Emirates (2), Northern Cyprus (1), and Jordan (4).

ISP's Certification Policies and Procedures were updated to account for the new structure of the U.S. State Department's Travel Advisories, and to expand ISP's services through the addition of Pre-Certification, which will be implemented in 2019.

The first face-to-face meeting of the International Services Program Advisory Group was held in Glasgow, Scotland, in September during the FIP Congress.

Several workshops and live webinars were presented with the aim of informing participants of ACPE/ISP's mission, vision, services and activities, and supporting initiatives to advance the quality of pharmacy education and practice.

A third regional faculty development workshop – a collaboration with AACP and the Commission for Academic Accreditation (UAE) – was held in Abu Dhabi, UAE. A second European regional faculty development workshop was held in Dubrovnik, Croatia, in

collaboration with AACP, the European Association of Faculties of Pharmacy, and PharmaExpert, Croatia. ISP's Director, Michael Rouse, was invited to speak on behalf of ACPE at various conferences and institutions internationally. Together with Dr. Arijana Meštrović, ISPAG Member, he continued the expansion of the SMART Pharmacy Program in several countries. The SMART Program has now been implemented or introduced in Turkey, Montenegro, Oman, Kuwait, Egypt, Jordan, Indonesia, Qatar, Romania, Estonia, Armenia and Poland.

The ISP team continued the implementation of the strategic objectives approved by the ACPE Board.
