AACP REPORT

The Pharmacy Student Population: Applications Received 2017-18, Degrees Conferred 2017-18, Fall 2018 Enrollments

Jamie N. Taylor, BA, Nancy T. Nguyen, MPP, Melissa A. Gray, BS

American Association of Colleges of Pharmacy, Arlington, Virginia

INTRODUCTION

This report presents data that describe the 2017-18 pharmacy application pool, degrees conferred in 2017-18, and fall 2018 pharmacy program enrollments. Data for this report were requested from 143 US colleges and schools of pharmacy recognized by the Accreditation Council for Pharmacy Education (ACPE) using five separate survey instruments.

There were previously two professional education programs at US colleges and schools of pharmacy: one leading to a baccalaureate in pharmacy, and the other leading to the Doctor of Pharmacy (PharmD) degree. However, June 30, 2005 marked the official expiration of the ACPE standards to the baccalaureate in pharmacy (BS Pharmacy) degree programs in accordance with the transition to the Doctor of Pharmacy (PharmD) degree as the sole professional degree program in the US. Some colleges and schools of pharmacy conferred degrees in the BS Pharmacy program until 2004-05.

For the purpose of this report, students in Doctor of Pharmacy programs are categorized under *PharmD1* when the program leads to a Doctor of Pharmacy degree conferred as the first professional degree. Students who have already received a baccalaureate in pharmacy and are enrolled in a Doctor of Pharmacy degree program are categorized under *PharmD2*.

The following definitions refer to the race/ethnicity groups as used in this report. *White* refers to US citizens or permanent residents having origins in any of the original peoples of Europe, the Middle East, or North Africa. *Black or African American* refers to US citizens or permanent residents having origins in any of the black racial groups of Africa. *Hispanic or Latino* refers to US citizens or permanent residents of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. *Asian* refers to US citizens or permanent residents having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian Subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Paki-

stan, the Philippine Islands, Thailand, and Vietnam. *Native Hawaiian or Other Pacific Islander* refers to US citizens or permanent residents having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. Prior to 2011, these students were included in the *Asian* category. *American Indian or Alaska Native* refers to US citizens or permanent residents having origins in any of the original peoples of North and South America (including Central America) who maintain cultural identification through tribal affiliation or community attachment. *Two or More Races* refers to US citizens or permanent residents who are not Hispanic or Latino and identify themselves by more than one race. *Unknown* refers to US citizens or permanent residents whose race and ethnicity are not known. Prior to 2011, this category was labeled *Other/Unknown* and students that were of two or more races were included in this category. Finally, *International/Foreign* refers to citizens of a foreign country/permanent residents of a country other than the US.

2017-2018 APPLICATION POOL

The 2017-18 Application Pool Survey was conducted online in October 2018 with an announcement and request for participation sent to the survey coordinator at each of the 143 colleges and schools of pharmacy in the US recognized by ACPE. After follow-up correspondence, 143 colleges and schools (100%) submitted the requested information. Included in the application pool are applicants who applied for admission and submitted all required application materials as defined by the Pharmacy College Application Service (PharmCAS) between September 2017 and August 2018 for the entering class of fall 2018. Numbers reported represent the number of applications, not applicants, and may represent multiple applications submitted by individual applicants.

During the period September 2017 through August 2018 the reporting institutions received 60,042 applications for admission.

Table 1. Distribution of 2017-18 Applications by Gender and Race/Ethnicity of Applicant^a

Race/Ethnicity	Male	Female	Gender Not Specified	Total (%)
White ^b	8,563	13,692	26	22,281 (37.1)
Black or African American ^b	3,014	4,529	5	7,548 (12.6)
Hispanic or Latino ^b	2,001	2,900	8	4,909 (8.2)
Asian ^b	6,786	10,450	16	17,252 (28.7)
Native Hawaiian or Other Pacific Islander ^b	22	40	0	62 (0.1)
American Indian or Alaska Native ^b	36	115	1	152 (0.3)
Two or more races ^b	728	1,148	13	1,889 (3.1)
Unknown ^b	979	1,913	52	2,944 (4.9)
International/Foreign ^c	1,061	1,942	2	3,005 (5.0)
Total	23,190	36,729	123	60,042

^a Represents data submitted by 143 schools

^b US citizen or permanent resident

^c Citizens of a foreign country/permanent residents of a country other than the US

In 2017-18, females submitted 61.2% of the applications to pharmacy colleges and schools; males submitted 38.6%; gender unknown/not reported submitted 0.2%. White Americans submitted 37.1% of the applications, Asian Americans submitted 28.7% of the applications, and underrepresented minorities submitted 21.1% of the applications (Black or African American, 12.6%; Hispanic or Latino, 8.2%; Native Hawaiian or Other Pacific Islander, 0.1%; American Indian or Alaska Native, 0.3%). Applications submitted from students that identified as two or more races totaled 3.1% and 5.0% of the applications were submitted by foreign, nonpermanent residents [Table 1]. For the first time in fourteen years, colleges and schools of pharmacy received slightly more applications from in-state residents (50.4%) compared to 49.6% from out-of-state residents.

Over 75% (75.1%) of the applications to colleges and schools of pharmacy were submitted by individuals who had 3 or more years of postsecondary experience (3 or more years of college/no degree, 33.2%; baccalau-

reate, 39.3%; master's, 2.2%; doctoral degree, 0.5%), [Table 2].

2017-2018 DEGREES CONFERRED

The 2017-18 Undergraduate and Professional Pharmacy Degrees Conferred and Graduate Pharmacy Degrees Conferred surveys were conducted online in October 2018, with an announcement and request for participation sent to the survey coordinator at each of the 143 colleges and schools of pharmacy in the US recognized by ACPE. Submission of the data was requested by December 2018. After follow-up correspondence, 143 colleges and schools (100%) submitted the Undergraduate and Professional Degrees Conferred Survey and the Graduate Degrees Conferred Survey.

Professional Degrees Conferred

Numbers of degrees conferred by US colleges and schools of pharmacy from 1965 to 2018 are presented in Table 3.

Table 2. Distribution of 2017-18 Applications to First Professional Degree Programs by Gender and Previous Postsecondary Experience of Applicant^a

Postsecondary Experience	Male	Female	Gender Not Specified	Total (%)
0 Years of College	2,587	4,695	17	7,299 (12.2)
1-2 Years of College/No Degree	1,138	1,971	3	3,112 (5.2)
Associate degree	1,718	2,795	13	4,526 (7.5)
3 or More Years of College/No Degree	7,522	12,366	22	19,910 (33.2)
Baccalaureate Degree	9,460	13,981	145	23,586 (39.3)
Master's Degree	559	755	0	1,314 (2.2)
Doctoral Degree	185	110	0	295 (0.5)

^a Represents data submitted by 143 schools

U/O: Individuals with unknown/other gender regardless of race/ethnicity

First Professional Degrees Conferred

In 2017-18, 135 colleges and schools of pharmacy reported conferring the Doctor of Pharmacy as a first professional degree (PharmD1). Graduating PharmD1 class sizes ranged from 29 students to 316 students (median, 95 students). Eight of the 143 colleges and schools did not confer degrees in 2017-18. These schools were new programs whose students had not yet progressed through the entire curriculum (Marshall B. Ketchum, Larkin, William Carey, Binghamton, High Point, Texas at El Paso, Texas at Tyler, and Medical College of WI).

In 2017-18 there were 14,905 first professional degrees conferred by colleges and schools compared to 14,502 in 2016-17 [Table 4]. The total number of first professional degrees conferred in 2017-18 represented a 2.8% increase from the total number of first professional degrees conferred in 2016-17 [Table 5].

In 1979-80, men received 59.5% of the first professional degrees conferred by colleges and schools and women received 40.5%. Over the past 35 years, these percentages have shifted dramatically and, in 2017-18, men received 37.8% of the first professional degrees conferred and 62.0% of these degrees were received by women. Women received the highest percentage of degrees conferred in 2005-06 (68.2%) [Table 6].

White Americans received 50.6% of first professional degrees conferred in 2017-18. Asian Americans received 25.8% of the first professional degrees. Underrepresented minorities received 14.1% of the first professional degrees conferred in 2017-18 (Black or African American, 8.3%; Hispanic or Latino, 5.4%; Native Hawaiian or Other Pacific Islander, 0.2%; American Indian or Alaska Native, 0.2%). The percentage of first professional degree recipients who were of two or more races was 2.4% and the percentage of recipients who were foreign, nonpermanent residents of the US was 2.7% [Table 7].

Doctor of Pharmacy Degrees Conferred to Post Baccalaureate Students

Six colleges and schools conferred the PharmD degree to post baccalaureate students in 2017-18. The number of graduates per institution ranged from 6 to 73 students (median, 34.5 students). The number of Doctor of Pharmacy degrees conferred as postbaccalaureate degrees (PharmD2) decreased by 5.5% to 205 in 2017-18 from 217 in 2016-17 [Table 5]. More women than men received PharmD2 degrees in 2017-18 (women, 69.8%; men, 30.2%) [Table 6].

White Americans received 24.9% of PharmD2 degrees conferred in 2017-18. Asian Americans received

Table 4. Baccalaureate and Doctor of Pharmacy (PharmD1) Degrees as %ages of Total First Professional Degrees Conferred 1981-2018

Year	BS Pharmacy ^a n (%)	PharmD1 ^b n (%)	First Professional ^c n

2017	14,502 (-0.4)	217 (-33.4)	962 (-6.0)	537 (-1.8)
2018	14,905 (+2.8)	205 (-5.5)	1,047 (+8.8)	600 (+11.7)

^a Includes BS Pharmacy, BPharm, and PharmD1 from 1981-2005. Includes only PharmD1 beginning in 2006

^b PharmD2 refers to the Doctor of Pharmacy degree awarded as a postbaccalaureate degree

degrees conferred in 2017-18. of PharmD two-degree recipients who were foreign, nonpermanent residents of the US was 14.6%, down slightly from 15.2% in 2016-17 [Table 8].

Graduate Degrees Conferred

The number of graduate degrees (MS and PhD) conferred has shown annual fluctuations over the 50 years data have been consistently gathered and reported

[Table 3]. The number of MS degrees conferred increased to 1,047 in 2017-18 from 962 in 2016-17, an 8.8% increase. The number of PhD degrees conferred increased in 2017-18 to 600 from 537 in 2016-17 (11.7% increase) [Table 5].

The highest percentage of MS degrees awarded in 2017-18 (31.6%) was in pharmaceuticals. The second highest percentage of MS degrees was in social and administrative sciences (30.1%); followed by medicinal

NA: Not applicable

chemistry (15.6%); pharmacology (8.5%); other disciplines (8.1%); and pharmacy practice (6.1%). The highest number of PhD degrees awarded in 2017-18 was in the discipline of pharmaceuticals (38.5%). The second highest number was in medicinal chemistry (19.3%); followed by pharmacology (18.2%); social and administrative sciences (13.3%); other disciplines (6.8%), and pharmacy practice (3.8%).

More women than men earned MS degrees (women, 63.4%; men, 36.6%; Unknown/Other Gender 0.0%); however, more men than women earned PhD degrees (women, 49.0%; men, 51.0%) in 2017-18. There have only been two years (2012-13 and 2008-09) since AACCP began collecting data that women received more PhD degrees than men. The percentage of women receiving PhD degrees has grown substantially from 51.0% in 2017-18 from only 18.0% in 1979-80 [Table 6].

Underrepresented minorities received 11.1% of MS degrees in 2017-18 (Black or African American, 5.7%; Hispanic or Latino, 4.7%; Native Hawaiian or Other Pacific Islander, 0.2%; American Indian or Alaska Native, 0.5%), a slight decrease from 11.2% in 2016-17. Asian Americans received 10.9% of the MS degrees conferred, down from 13.4% in 2016-17. The percentage of MS degree recipients who were of two or more races was 1.1% and the% of degree recipients who were foreign, nonpermanent residents of the US was 38.9%, up from 30.2% in 2016-17. [Table 11].

Underrepresented minorities earned 4.8% of the PhD degrees awarded in 2017-18 (Black or African American, 3.5%; Hispanic or Latino, 1.2%; Native Hawaiian or Other Pacific Islander, 0.0%; American Indian or Alaska Native, 0.2%), a decrease from 5.2% in 2016-17. Asian Americans earned 7.7% of the PhD degrees awarded. The percentage of PhD degree recipients who were of two or more races was 0.2% and The percentage of degree recipients that were foreign, nonpermanent residents of the US was 57.2%, up from 57.0% in 2016-17. [Table 12].

FALL 2018 ENROLLMENTS

The 2018 Undergraduate and Professional Pharmacy Degree Enrollment Survey and Graduate Degree Enrollment Survey were conducted online in October 2018, with an announcement and request for participation sent to the survey coordinator at each of the 143 colleges and schools of pharmacy in the US recognized by ACPE. Submission of the data was requested by December 2018. After follow-up correspondence, 143 colleges and schools (100%) submitted the requested information.

Total	383	664		1,047		306	294		600	

^a Includes biophysics/biological & medical informatics, regulatory science and HCDA, pharmaceutical affairs, pharmacy, pharmacogenomics, public health, hospital pharmacy administration in MS programs and biophysics/biological & medical informatics, DRSc, pharmaceutical sciences, pharmacogenetics, pharmacy, and ethics/pharmacy/therapeutics in PhD programs

Professional Degree Programs

Fall 2018 enrollments in PharmD as the first professional degree programs (n= 62,504) represented a 0.9% decrease from enrollments in fall 2017 (n= 63,087) [Table 13]. In fall 2018, 63.0% of the students enrolled in the PharmD as the first professional degree programs were females and 36.9% were males [Table 14].

White Americans nearly comprised the majority (48.8%) of students enrolled in the PharmD as the first professional degree programs. Asian Americans accounted for 24.7%; Black or African Americans, 9.1%; Hispanic or Latino, 6.5%; Native Hawaiians/Other Pacific Islanders, 0.2%; American Indians/Alaska Natives, 0.4%; and international/foreign students, 3.1%. Students where race/ethnicity was unknown accounted for 3.9% of enrollees and students that identified as two or more races accounted for 3.2% of all first professional degree enrollments. Students whose race/ethnicity and gender were unknown accounted for 0.1% of enrollments. Enrollments of underrepresented minorities (Black or African American, Hispanic or Latino, Native Hawaiian or Other Pacific Islander, American Indian or Alaska Native) as a percentage of total enrollments in the PharmD as a first professional degree programs increased to 16.2% in fall 2018 from 15.3% in fall 2017 [Table 15].

Nine colleges and schools reported 764 students who already held a baccalaureate in pharmacy enrolled in Doctor of Pharmacy degree programs (PharmD). This was a decrease of 1.2% from fall 2017. Underrepresented minorities accounted for 22.8% of these students (Black or African American, 20.4%; Hispanic, 2.0%; Native Hawaiians/Other Pacific Islander, 0.3%; American Indians/Alaska Native, 0.1%). White Americans comprised 34.4%; Asian Americans, 17.5%; students of two or more races,

1.0%; unknown, 12.3%; and international/foreign students, 11.5%; and students of unknown race/ethnicity and gender, 0.4%.

Graduate Degree Programs

In fall 2018, the discipline of pharmaceutics had the highest percentage of full-time enrollees at both the MS and PhD levels (47.2% and 40.2%, respectively). At the master's level, 18.7% of the students were enrolled in social and administrative sciences programs; 11.3% in pharmacology programs; 8.7% in other disciplines; 7.3% in pharmacy practice programs; and 6.8% in medicinal chemistry programs. At the doctoral level, 23.4% of the students were enrolled in medicinal chemistry programs; 16.0% in pharmacology programs; 12.0% in social and administrative science programs; 4.6% in other disciplines; and 3.9% in pharmacy practice [Table 16].

In fall 2018, more females than males were enrolled full-time in both MS and PhD degree programs. In MS programs females accounted for 62.8% of enrollments and males, 37.2%. Women accounted for 51.0% of PhD full-time enrollments, an increase from 48.4% in fall 2017.

Of the 1,319 students enrolled full-time in MS degree programs in fall 2018, approximately half (49.9%) were foreign students. White Americans comprised 24.3% of enrollees and Asian Americans accounted for 10.2%. Underrepresented minorities accounted for 10.5% of MS enrollees (Black or African American, 4.3%; Hispanic or Latino, 5.5%; Native Hawaiian or Other Pacific Islander, 0.2%; American Indian or Alaska Native, 0.5%). Americans of two or more races made up 1.7% of enrollees and 3.4% of all full-time MS degree enrollees were reported as race/ethnicity unknown.

Of the 3,205 students enrolled full-time in PhD degree programs in fall 2018, foreign students were also the
